3. App Overview

App Name & Purpose:
Last Floor is a mobile horror maze game where the player explores four grid-based floors with randomized placement of keys and items. The player must collect one key per floor to unlock the final escape door. Survival depends on stealth, resource management (bandage, shield, speed boost), and reacting to time-limited dark events.

The UI/UX design emphasizes fast readability, one-handed controls, and clear visual feedback for hold-based interactions and temporary powers.

Target Audience:
Casual mobile gamers aged 13 and above who enjoy short suspense-based sessions, simple controls, and progression through collectible objectives.

Key Features:
• Grid-based maze with four floors and one key per floor.
• A single escape door that unlocks after collecting all four keys.
• First-run setup: player chooses a name and character once; subsequent runs reuse the saved profile.
• Hold-to-collect system with progress feedback: key (10 seconds) and items (bandage, speed, shield) (5 seconds), plus special items such as freeze and kill orb.
• Random Dark Mode event: 5-second warning followed by 30 seconds of darkness with vibration and increased ghost aggression.
• Results and Achievements screen displaying win/lose summary, total play time, best escape time, and notification when a new personal record is achieved.

4. Screen Inventory

#	Screen Name	Purpose / Description	Navigation Type to Reach
1	**Splash / Launch**	Shows "THE LAST FLOOR / Loading..." branding while app boots and loads saved data	Stack (initial screen, auto-advances)
2	**Intro Video**	Full-screen cinematic intro video ("The Last Floor" by , &); tap to skip	Shown automatically after Splash on first/every launch
3	**"Are You Ready?" Transition**	Animated cinematic sequence: "WELCOME [NAME] — ARE YOU READY?" + credits (· ·) + game pitch	Auto-plays after Intro Video, before gameplay
4	**Home / Main Menu (Hub)**	Start game, view profile, rules, settings, achievements; shows character avatar, stats summary, daily tip	Stack root - reached after first-run setup or on return

5	**First Run Setup (Name)**	Collect player name on first launch only; stored in AsyncStorage	Auto-pushed from Home if no saved profile detected
6	**Character Creator**	Select one of 6 pre-built survivor sprites (Wildling, Hooded, Viking, Elven, Valkyrie, Shieldmaiden); saved locally	Pushed from Home or Profile on first run or "change character"
7	**Profile**	Edit player name inline, view character avatar, see stats (escapes/deaths/win rate/best time), open Settings & Achievements	Tab within Hub (bottom nav)
8	**How to Play**	Scrollable rules page with 5 sections: Objective, Movement, Items, Ghosts, Tips; color-coded rule cards	Tab within Hub (bottom nav "RULES")
9	**Settings**	Microphone lure toggle (on/off) for Dark Mode; About section (game name, authors, floors, tech stack)	Stack push via Profile button or navigation
10	**Achievements**	Stats grid (escapes, deaths, win rate, best time, total runs, hours); Last Run card; 8 badges; Location feature (set survivor home base via GPS)	Stack push via Profile button or navigation
11	**Typing Intro**	*(now replaced by "Are You Ready?" screen — see row 3)*	
12	**Game Map (Play)**	Main gameplay: 4-floor maze, HUD (floor/hearts/key/timer), ghost, darkness/fog-of-war, movement controls, items (freeze/push/shield/bandage), elevator	Stack push after "Are You Ready?" transition
13	**Elevator Interior**	Full-screen cinematic elevator room: real sliding doors, ceiling lights, floor counter, mirror reflection of character, floor button panel, shake/flicker animations	In-game overlay triggered by pressing ELEVATOR button with collected key
14	**Pause Menu**	Resume, return to home; game loop paused; run not saved	Modal overlay from Play (pause button top-right)
15	**Dead Screen**	"DEFEATED" floor number, caught-by-ghost message, rotating survival tip card, RETRY FLOOR / BACK TO HOME buttons	Replaces Play screen when player loses all hearts
16	**Win Screen**	"ESCAPED!" character celebration, time card, best time card, record badge if new record, play again / menu options	Replaces Play screen when all 4 floors are cleared

17	**Results Screen**	Post-run summary card: MISSION COMPLETE or MISSION FAILED, time, best time, NEW RECORD badge; BACK TO MENU	Stack screen (navigated from Results route)

7. Color Palette & Style Guide

Element	Color (Hex)	Font / Size	Notes
App background (launch / hub / pause)	#03020A / #070615	—	Near-black with deep violet undertone. Base layer on most screens.
Game world Floor 1 (The Maze)	#030C06	—	Deep dark green. Forest/dungeon atmosphere.
Game world Floor 2 (Upper Floor)	#03040E	—	Deep dark navy. Cold and clinical.
Game world Floor 3 (Attic)	#0D0306	—	Deep dark maroon. Tense and claustrophobic.
Game world Floor 4 (No Escape)	#0C0001	—	Near-black red. Maximum dread.
Win screen background	#020B06	—	Very dark green — success without being celebratory.
Defeated screen background	#060004	—	Very dark purple-red — loss and tension.
Floor 1 accent (walls, glow, HUD)	#3BD46A	—	Bright green. Wall glows, zone rings, HUD elements on floor 1.
Floor 2 accent	#3B6CFF	—	Bright blue. Same roles as floor 1 accent but on floor 2.
Floor 3 accent	#FF3B8D	—	Hot pink. Used on floor 3.
Floor 4 accent	#FF3B3B	—	Bright red. Reinforces the "no escape" theme on floor 4.
Gold primary	#C9A44C	Arial, varies	Signature colour. Titles, borders, badges, credits, highlights everywhere.
Gold (light tint)	#FFF8E7	—	Very subtle background tint on highlighted cards (e.g. Objective card in Rules).
Cream body text	#E8DCC8	Arial, 18–22 px	Main readable text. Player names, labels, content text.
Lavender secondary text	#D6C8FF	Arial, 18–20 px	Subtitles, welcome messages, some stat values.
Green success / enabled	#5ECFA0 / #19C37D	Arial, 10–13 px	Win outcomes, ENABLED toggle state, save confirmations, shield armed.
Red danger / disabled	#CC1122 / #FF4455	Arial, 10–13 px	Defeated screens, RETRY button, DISABLED toggle, chase tint.
Amber alert state	#FFCC00	Arial, 10 px	Ghost alert state badge and text in HUD.

Blue - freeze / info	#88DDFF / #3B6CFF	Arial, 10 px	Freeze charges, freeze timer, shield indicator, Best Time stat.
Orange - push / warning	#FF8844	Arial, 11 px	Push charge counter, PUSH button, bandage item.
Purple-lavender elevator / UI	#D6C8FF / #A090FF	Arial, varies	Elevator UP button, speed item, some overlay text.
Title text (screen headings)	#E8DCC8 / #C9A44C	Arial Bold, 20–56 px	Large headings. Gold used for primary brand moments.
Monospace UI text (HUD, controls)	#E8DCC8 / theme accent	Monospace, 9–13 px	All in-game text uses monospace for a console/terminal aesthetic.
Card border (standard)	rgba(255,255,255,0.08–0.12)	—	Default faint white border on cards and panels throughout the UI.
Gold card border (highlighted)	rgba(201,164,76,0.2–0.4)	—	Special cards: Objective card, Achievement badge (unlocked), score card on win screen.
Chase tint overlay	rgba(255,0,30,0.07)	—	Full-world red wash when a ghost is chasing. Very subtle.
Freeze tint overlay	rgba(180,240,255,0.10)	—	Full-world icy blue wash when freeze is active.
Dark Mode overlay	rgba(0,0,0,0.38)	—	Applied over the game world during Dark Mode phases.
Fog-of-war (gameplay)	rgba(0,0,0,0.72–0.78)	—	Dark overlay with circular cutout. Opacity increases on higher floors.

8. Component hierarchy Documentation

8.1 Splash / Launch Screen

Component	Type	Visual Style	Behaviour & Notes
Screen container	Full-screen View	Near-black background #03020A. Centred column layout. Fills the entire display including safe areas.	Root screen on boot. Holds all children. Auto-advances once AsyncStorage finishes loading player data.
TLF logo	Text label	Gold (#C9A44C), 48 px bold, Arial, letter-spacing 6. Centred horizontally.	Static branding. Shows the abbreviated game title "TLF".
THE LAST FLOOR subtitle	Text label	Cream (#E8DCC8), 18 px, letter-spacing 7. Centred below the logo.	Secondary title below the logo. Always visible during the splash.
Loading indicator	Text label	"Loading…" — dim white, 10 px, monospace font. Centred at the bottom third.	Visible while AsyncStorage data loads. Disappears automatically when loading completes. Not tappable.

8.2 Intro Video Screen

Component	Type	Visual Style	Behaviour & Notes
Black background	Full-screen View	Solid black, covers entire screen. Always behind the video layer.	Base layer shown while the video asset loads. Prevents any white flash.
Video player	Full-screen video element	Full-screen, width 100%, height 100%, object-fit fill — no letterboxing. No visible controls or progress bar.	Plays automatically on screen mount. Calls skip() on natural end or on any load error. On native (iOS/Android) uses Expo AV; on web uses injected DOM element.
Fallback screen	Centred View	Centred "TLF / THE LAST FLOOR" text on black. 48 px + 26 px, cream colour.	Only shown if the video asset is missing or cannot load. Mimics the splash screen visually.
Skip overlay	Invisible full-screen TouchableOpacity	Transparent, covers entire screen at the highest z-index (9999999). No visible border or fill.	Tap anywhere at any time to skip the video and advance to the next screen immediately.
"TAP TO SKIP ▶" label	Text label (non-interactive)	Bottom-right corner. Dim white, 11 px monospace. pointerEvents: none.	Hint text only. Never blocks taps on the skip overlay beneath it.

8.3 "Are You Ready?" Cinematic Transition

Component	Type	Visual Style	Behaviour & Notes
Scanline overlay	Decorative full-screen View (non-interactive)	Full-screen rows of 1 px horizontal lines, rgba(255,255,255,0.015). Covers entire background. Behind all content.	CRT/retro texture effect. pointerEvents: none — never blocks interaction.
Welcome greeting	Animated text label	Dim white, 11 px monospace, letter-spacing 5. Slides up and fades in as the first element.	Shows personalised player name from saved profile. e.g. "Welcome, ".
"ARE YOU" pre-label	Static text label	Very faint white, 10 px, letter-spacing 6.	Sets up the main headline below it. Static — no animation.
"READY?" headline	Animated text label	Cream, 58 px bold Arial, gold glow text-shadow. Pulses scale 1.0 → 1.06 in a continuous loop.	Centrepiece of the screen. Spring-like pulse animation runs indefinitely once started.
Gold animated divider	Animated horizontal line	1.5 px height, gold rgba(201,164,76,0.5). Width animates from 0% to 60% of screen width.	Draws itself across the screen using animation interpolated to width percentage.
Game description	Animated text label	Dim white, 12 px, line-height 20. Slides up and fades in after the divider.	"4 floors. Real ghosts. No second chances."
Credits block	Animated View	Fades in last. "CREATED BY" dim label + gold " · · " + tagline below.	Last element in the sequence. Calls onDone() after a final 1800 ms pause to advance.
Silence warning card	Animated View with red border	Red-bordered card (rgba(255,80,80,0.40) border, rgba(255,30,30,0.10)	Fades in alongside the credits block. Warns the player about the microphone mechanic in

		fill, rounded 14). "STAY SILENT" heading in red #FF6666 + 3 lines of warning text.	Dark Mode before the game starts.

8.4 First Run Name Setup.

Component	Type	Visual Style	Behaviour & Notes
Screen wrapper	SafeAreaView	Dark background #070615. Content centred vertically. Respects device notch and safe areas on all device sizes.	Outer container. Ensures content is never hidden behind device UI elements.
Card container	Rounded View	Rounded 18, dim white border rgba(255,255,255,0.10), very subtle dark fill. Groups the input and buttons inside one visual card.	Contains the title, text input, and action buttons together.
"ENTER YOUR NAME" title	Text label	Cream, 14 px bold monospace, letter-spacing 5, centred at the top of the card.	Instructions heading. Static — no interactivity.
Name TextInput field	Text input field	Dark fill, dim white border, monospace font. Placeholder text "Human" in rgba(255,255,255,0.25). Blinking cursor when focused.	Controlled input. Validation: non-empty = "can save". Auto-focused on screen open. No enforced character limit.
BACK button	Tappable button	Dim white border, flex:1 width, 12 px vertical padding. Same height as SAVE button. Side by side in a row.	Exits without saving. Navigates back one screen.
SAVE button	Tappable button	Gold border + gold background tint when valid. Dim grey border and no tint when input is empty. flex:1 width.	Active (tappable) only when name is non-empty. Saves name to AsyncStorage under key LASTFLOOR_PROFILE_V1 and advances to Character Creator.

8.5 Character Creator

Component	Type	Visual Style	Behaviour & Notes
Screen wrapper	Animated full-screen View	Full-screen #03020C background. Opacity animates 0 → 1 over 600 ms on every open.	Root container. Fade-in animation runs on every open, not just first-time.
Header bar	View (fixed top)	Bottom border line #1A1428. Centred content. Stays fixed at top while grid scrolls below.	Contains the screen title only. Does not scroll.
"THE LAST FLOOR" micro-label	Text label (inside header)	7 px grey, letter-spacing 6, monospace. Very small label above the main heading.	Branding micro-label matching the style used in other headers throughout the game.
"CHOOSE YOUR SURVIVOR" title	Text label (inside header)	18 px cream bold, letter-spacing 5, monospace.	Screen heading. Static.

Character grid	Scrollable View (2 × 3)	Centred column, two rows of 3 cards, 12 px gap between cards, 10 px vertical padding. Scrollable vertically if device is short.	Displays all 6 playable characters. Scrollable to handle small screen sizes.
Character card (× 6)	Tappable card (TouchableOpacity)	220 px wide, rounded 20. Each card has a unique coloured border and background tint. Active opacity 0.82 on press.	Entire card is tappable. Tap calls onDone(charData) and exits the screen immediately, saving the selection.
Character sprite	Image (inside card)	130 × 130 px, contain resize mode. Pulled from the character image registry (char2–char7.png).	Visual preview of the character. Rendered from image assets.
Character name	Text label (inside card)	13 px bold monospace, unique accent colour per character, letter-spacing 3.	e.g. WILDLING, HOODED, VIKING, ELVEN, VALKYRIE, SHIELDMAIDEN
Character subtitle	Text label (inside card)	8 px grey monospace, letter-spacing 1.	Short flavour text. e.g. "Forest Survivor", "Horn Helmet"
SELECT affordance button	Decorative View (inside card)	Full card width, rounded 12, coloured border + dim fill matching the card accent. Labelled "SELECT".	Visual affordance only — not a separate interactive element. The entire card handles the tap.

8.6 Home / Main Menu Hub

8.6.1 Bottom Navigation Bar (Persistent).

Component	Type	Visual Style	Behaviour & Notes
BottomNav container	Fixed-bottom View	rgba(10,8,24,0.96) background with 1 px top border. Horizontal row layout. paddingBottom: 10, paddingTop: 10. Spans full screen width.	Always visible regardless of which tab is active. Fixed at the bottom of the screen.
PROFILE tab button	Tappable button (92 × 50 px)	Rounded 16. Active state: green border rgba(25,195,125,0.35) + green icon tint. Inactive: dim border, no tint.	Switches the content area to the Profile tab. Does not push to a new screen.
START button	Tappable button (120 × 56 px)	Gold background #C9A44C, rounded 18. " START" label in dark text. Largest element in the nav bar.	Triggers the full game launch sequence immediately. Skips tab switching. Takes the player through the Silence Alarm and into gameplay.
RULES tab button	Tappable button (92 × 50 px)	Rounded 16. Same active/inactive state logic as PROFILE tab.	Switches the content area to the How to Play tab.

8.6.2 Home Tab

Component	Type	Visual Style	Behaviour & Notes
Content card	Rounded View	Rounded 18, rgba(255,255,255,0.08) border, rgba(255,255,255,0.02) fill, 18 px padding. Content centred vertically inside.	Single card wrapping all Home tab content.

Character avatar	Character sprite (size 1.4)	Centred at the top of the card. 140 px effective size.	Shows the player's selected character. Blank placeholder box if no character is set yet.
Game title "THE LAST FLOOR"	Text label	Cream #E8DCC8, 22 px bold Arial. Red glow text-shadow rgba(255,0,80,0.55), textShadowRadius 18.	Branding. Always visible. Red glow gives it a horror atmosphere.
Tagline	Text label	10 px dim white, line-height 16, centred.	"4 floors. Collect all 4 keys. Open the door. Survive."
Player info row	Horizontal View	Dark rounded card rgba(0,0,0,0.35), flex row, 12 px gap, 12 px padding. Contains the mini avatar and quick stats side by side.	Compact personalisation row with avatar and live stats.
Avatar mini	Character sprite (size 0.9)	42 × 42 px rounded container with dim border.	Small character icon for personalisation in the info row.
Welcome name	Text label	"Welcome, [name]" — lavender #D6C8FF, 12 px bold, letter-spacing 2.	Personalised greeting using the saved player name.
Quick stats	Text label	"Escapes: X • Deaths: X • Best: X:XX" — dim white, 10 px.	Reads from AsyncStorage on mount. Updates live if stats change during the session.
Tip card	Rounded View	Rounded 16, rgba(255,255,255,0.03) fill, dim border. Contains tip label, tip text, and source indicator.	Displays a gameplay tip or motivational quote.
Tip label	Text label	"TIP" — dim white, 10 px bold, letter-spacing 3.	Section label at the top of the tip card.
Tip text	Text label	Dim white, 10 px, line-height 16.	Fetches from https://api.quotable.io/random. Falls back to one of 5 local tips if offline or fetch fails.
Source indicator	Text label	"Source: Online" or "Source: Offline" — very dim, 9 px.	Shows where the tip came from. Only visible after the fetch attempt resolves.

8.6.3 Profile Tab

Component	Type	Visual Style	Behaviour & Notes
Hero card	View (rounded 20)	Gold top stripe (3 px), dim border, overflow hidden. Contains avatar container, name, and rank label.	Identity card at the top of the Profile tab.
Avatar container	View (80 × 80 px, rounded 24)	rgba(0,0,0,0.4) fill, 2 px gold border rgba(201,164,76,0.35). Wraps the character sprite.	Gold border ties the avatar to the game brand colour.
Character sprite	Character sprite (size 1.4)	Rendered inside the avatar container.	"?" placeholder shown if no character is set.
Player name (view mode)	Tappable label	Player name in cream 20 px bold + small "EDIT" badge with gold border.	Tap to enter inline edit mode. Badge signals the name is editable.
Player name (edit mode)	Inline row (TextInput + buttons)	TextInput with 1.5 px gold border + SAVE button + X cancel button. Appears inline replacing the view mode.	TextInput is auto-focused on switch. SAVE button writes to AsyncStorage.
Save confirmation	Text label	"SAVED" — green #19C37D, 10 px, letter-spacing 2.	Appears for 1400 ms after a successful save, then disappears automatically.

Rank label	Text label	Very dim white, 9 px monospace, letter-spacing 2.	NEWCOMER (0 escapes) / FLOOR RUNNER (1–2) / RISING ESCAPIST (3–5) / VETERAN SURVIVOR (6+). Calculated from escape count.
Stats section label	Text label	"STATISTICS" — dim white, 9 px, letter-spacing 3.	Section label above the stat cards. Not interactive.
ESCAPES stat card	Stat card component	"WIN" symbol, gold value, "ESCAPES" label below.	Reads stats.escapes from AsyncStorage.
DEATHS stat card	Stat card component	"RIP" symbol, red value.	Reads stats.deaths.
WIN RATE stat card	Stat card component	"PCT" symbol, green #19C37D value.	Calculated: escapes / totalRuns × 100.
BEST TIME stat card	Stat card component	"TIME" symbol, blue #88DDFF value.	Best escape time in M:SS format.
TOTAL RUNS stat card	Stat card component	"ALL" symbol, lavender value.	Total game runs started.
EDIT CHARACTER action row	Tappable action row	Gold accent, "CHR" badge, title + subtitle, ">" chevron, rounded 16.	Opens the Character Creator screen.
ACHIEVEMENTS action row	Tappable action row	Purple accent, "ACH" badge, same layout.	Opens the Achievements screen.
SETTINGS action row	Tappable action row	Dim white, "SET" badge, same layout.	Opens the Settings screen.

8.6.4 How to Play (Rules) Tab

Component	Type	Visual Style	Behaviour & Notes
Header block	View (top, centred)	Top padding 20. Contains micro-label, main title, and gold accent line below.	Fixed visual header for the Rules tab.
"THE LAST FLOOR" micro-label	Text label	Very dim, 8 px monospace, letter-spacing 6.	Matches the micro-label style used across screens.
"HOW TO PLAY" title	Text label	Cream, 18 px bold, letter-spacing 5.	Screen heading.
Gold accent line	Decorative View	40 × 2 px, gold #C9A44C, rounded, opacity 0.6.	Decorative separator below the title.
Section divider (× 5)	Section component	Full-width line — centred "LABEL" — full-width line. Label in gold, 8 px. Used 5 times.	Sections: OBJECTIVE, MOVEMENT & ACTIONS, ITEMS (FIND IN MAZE), GHOSTS & DANGER, TIPS.
Objective card	Highlighted View	Rounded 16, rgba(201,164,76,0.06) fill, rgba(201,164,76,0.2) border.	Most prominent card. Explains free elevator movement and the all-4-keys win condition. Key words are rendered in gold.
Rule card (× 9+)	Row card (Rule component)	Row: 40 × 40 symbol badge + text column (title + body). 12 px gap.	One card per mechanic: Key, Elevator, Sprint, Freeze, Push, Bandage, Shield, Ghost Zones, Chase, Dark Mode, Open The Door.
Symbol badge	View (40 × 40 px, rounded 12)	Dark fill. Symbol text in accent colour per mechanic.	KEY=gold, ❄=blue, 💥=orange, SH=teal, !!!=red, RUN=red, DRK=purple, 🚪=green (win state).
Rule title	Text label	11 px bold, accent colour per mechanic, letter-spacing 2.	e.g. "Freeze Charge", "Ghost Zones".
Rule body	Text label	10 px dim white, line-height 16.	Full description of the mechanic in plain language.

SILENCE WARNING section	Red-bordered card	rgba(255,30,30,0.10) fill, rgba(255,80,80,0.40) border, rounded 14. Red "SILENCE WARNING" label + explanation text.	Warns that loud sounds during Dark Mode attract ghosts. Matches the Silence Alarm modal styling.
Tips list	Vertical stack	4 tip rows, gap 6, paddingHorizontal 4.	Practical gameplay suggestions at the bottom of the screen.
Tip row item	Horizontal View	Gold "›" bullet (10 px) + tip text (10 px dim white, line-height 17).	e.g. "Collect all 4 keys before reaching the elevator on Floor 4."

8.7 Settings

Component	Type	Visual Style	Behaviour & Notes
Screen root	SafeAreaView	#050508 background. Respects device safe areas.	Outer container.
Fade wrapper	Animated View	Opacity 0 → 1 over 500 ms on mount.	All content fades in when the screen opens.
Header row	Horizontal View (space-between)	Flex row, padding top 4. Left side: title block. Right side: BACK button.	Contains screen title and back navigation.
"SETTINGS" title	Text label	20 px cream bold, letter-spacing 5.	Screen heading.
"THE LAST FLOOR" micro-label	Text label	8 px dim white, letter-spacing 5. Above the title.	Matches micro-label style used in other headers.
BACK button	Tappable button	Rounded 10, dim border, dim fill, "BACK" label 10 px monospace.	Top-right of header. Calls navigation.goBack().
AUDIO section divider	Section divider View	Line — "AUDIO" gold label — line. Matches the Rules screen section divider style.	Visual separator before the audio settings.
Microphone Toggle card	Toggle component	Dark card, rounded 16, dim border. Title "MICROPHONE LURE" + description + 2 full-width side-by-side buttons.	Controls micEnabled in the saved profile. Saved to AsyncStorage on every tap.
ENABLED button (inside toggle)	Tappable button	Active state: green border #5ECFA0 + green tint fill. Inactive: dim border only. flex:1 width.	Sets micEnabled: true. Activates the microphone lure feature during Dark Mode.
DISABLED button (inside toggle)	Tappable button	Active state: red border #FF4455 + red tint fill. Inactive: dim border only. flex:1 width.	Sets micEnabled: false. Disables mic lure completely.
DISPLAY section divider	Section divider View	Line — "DISPLAY" gold label — line.	Visual separator before display settings.
Show Ghost Zones Toggle	Toggle component	Same card layout as Microphone toggle. Title "GHOST ZONES" + description.	Controls whether ghost patrol zone rings are visible during gameplay.
Show Controls Toggle	Toggle component	Same card layout.	Controls whether on-screen control buttons are visible during gameplay.
DATA section divider	Section divider View	Line — "DATA" gold label — line.	Visual separator before data settings.
Reset Stats button	Tappable action row	Red border + red tint fill. "RESET ALL STATS" label in red.	Clears all saved stats from AsyncStorage after confirmation prompt.

8.8 Achievements

Component	Type	Visual Style	Behaviour & Notes
Screen root	SafeAreaView	#050508 background.	Outer container.
Fade wrapper	Animated View	Opacity 0 → 1 over 500 ms on mount.	All content fades in on open.
Header row	Horizontal View	Same layout as Settings header. Left: title block. Right: BACK button.	Contains screen title and back navigation.
"ACHIEVEMENTS" title	Text label	20 px cream bold, letter-spacing 5.	Screen heading.
Progress summary	Text label	e.g. "3 / 12 Unlocked" — dim white, 11 px, letter-spacing 2, centred.	Shows overall unlock progress below the title.
Achievement card (× N)	Rounded View	Rounded 16. Unlocked: gold border rgba(201,164,76,0.4) + gold tint fill. Locked: dim border + dark fill + 0.45 opacity.	One card per achievement. Unlocked cards glow gold. Locked cards are visually dimmed.
Achievement icon	Text / emoji (inside card)	24 px, centred. Unique icon per achievement.	Visual shorthand for the achievement type.
Achievement title	Text label	12 px bold, cream or gold (if unlocked), letter-spacing 2.	e.g. "First Escape", "Speed Runner", "Ghost Whisperer".
Achievement description	Text label	10 px dim white, line-height 16.	Condition for unlocking. e.g. "Escape all 4 floors in under 5 minutes."
Lock icon (locked cards)	Text label	" 🔒 " — 14 px, top-right corner of the card.	Only visible on locked achievements.
Unlock date (unlocked cards)	Text label	Very dim, 9 px, letter-spacing 1. Bottom of the card.	e.g. "Unlocked 3 Mar 2025". Pulled from AsyncStorage.

8.9 Game World (Gameplay Screen)

.

Component	Type	Visual Style	Behaviour & Notes
World container	Full-screen View	Theme-coloured background (#030C06 / #03040E / #0D0306 / #0C0001 per floor). Contains all world-space elements. Camera translate applied here.	All world elements are children of this view. Camera follow is implemented by translating this container.
Floor background	Decorative View + SVG overlay	Checkered tiles (120-unit grid) in theme tile/tileAlt colours. SVG scratch lines and dust dot overlays.	Generated once per floor. Static — does not change during gameplay.
Wall blocks	View elements (themed)	Themed rectangle: top highlight, left highlight, inner dark, outer glow border. Corner radius on interior walls only.	One per maze cell marked as wall. DFS-generated maze — unique layout every run, same difficulty level across players.
Floor key	Animated View	Glowing SVG key icon + large soft spotlight circle below it, animated pulse in floor accent colour.	The floor's collectible key. Player must stand nearby and hold to collect. Spotlight helps find it in the dark.
Elevator zone	View (world-space)	Rounded rectangle labelled "LIFT", 4 coloured dots below	Entry point to the elevator. Dots light up for each of the 4 keys collected. Player can

		(one per key collected), theme glow shadow.	use elevator freely between floors.
Bandage pickup	Animated View	Orange bandage icon + soft glow circle. Animated float up/down pulse.	Walk over to collect (auto-collect). Restores HP or increases max hearts.
Freeze charge pickup	Animated View	Icy blue crystal icon + blue glow.	Walk over to collect (auto-collect). Adds +1 to the freeze charge count.
Push charge pickup	Animated View	Orange orb icon + orange glow.	Walk over to collect (auto-collect). Adds +1 to the push charge count.
Shield pickup	Animated View	Teal shield icon + teal glow.	Walk over to collect (auto-collect). Adds shield charges to the inventory.
Speed boost pickup	Animated View	Purple lightning icon + purple glow. Floor 1 easiest difficulty only.	Walk over to collect (auto-collect). Unlocks the sprint ability (double-tap to sprint).
Kill orb pickup	Animated View	Dark red glowing orb. Floors 2–4 only.	Hold to collect. One-time use to eliminate the nearest ghost within range.
Ghost sprite	Image + SVG halo	Ghost image with glow halo (r × 6.5 container) + state badge above. Halo and badge colour match ghost state.	State-driven colours: patrol=grey, alert=amber, chase=red, frozen=blue. Falls back to procedural SVG if no image.
Ghost zone ring	SVG circle (world-space)	Dashed circular outline in world-space. Circle at zone centre. Opacity varies by state.	Patrol: 0.07 opacity. Alert: 0.18. Chase: 0.28. Colour from theme accent / alertColor / chaseColor. Can be hidden via Settings.
Player character	Animated View + Image	Character sprite at current x/y position. Animated walk cycle when moving.	Controlled by D-pad. Wall collision prevents moving through walls. Sprint state increases movement speed.
Fog-of-war overlay	SVG mask (full-screen)	Dark overlay rgba(0,0,0,0.72–0.78) with circular cutout centred on the player.	Circular visibility radius around the player. Opacity increases on higher floors for added difficulty.
Chase tint overlay	Full-screen View (absolute)	rgba(255,0,30,0.07) full-screen fill.	Very subtle red wash when any ghost is in chase state. Reinforces danger without obscuring the maze.
Freeze tint overlay	Full-screen View (absolute)	rgba(180,240,255,0.10) full-screen fill.	Icy blue wash when freeze is active.
Dark Mode overlay	Full-screen View (absolute)	rgba(0,0,0,0.38) applied over the game world.	Active during Dark Mode phases. Reduces visibility further. Microphone becomes active during this period.

8.9.1 HUD Bar (Fixed Top Overlay)

Component	Type	Visual Style	Behaviour & Notes
HUD container	Fixed-top View	Dark background rgba(0,0,0,0.55), padding top safe area. Horizontal row layout spanning full width.	Always visible during gameplay. Disabled during elevator ride and pause.
THE LAST FLOOR label	Text label	Theme accent colour, 13 px bold monospace, letter-spacing 3. Left side of HUD.	Branding label. Colour changes per floor theme.

Floor + key status text	Text label	Monospace 10 px. Changes dynamically.	⚠ CHASE / ? ALERT / ✓ FLOOR X — KEY COLLECTED / FLOOR X — FIND KEY. On Floor 4: shows X/4 KEYS collected count.
Heart row	Heart row component	Row of 13 × 13 px squares — red #FF3355 (alive), dark #2A1A1A (lost). Max 5 hearts displayed. Wraps at maxWidth 90.	Shows current health. Takes hearts (current) and maxH (maximum) as values.
Timer	Text label	White/cream monospace, 11 px. Centre of HUD.	Counts up from 00:00. Stops on defeat or win.
Key count badge	View + Text	Small pill badge. Gold key icon + "X/4" count. Gold border when all 4 collected.	Shows how many of the 4 keys have been collected across all floors.
Ghost state badge	View + Text label	Amber: "? ALERT". Red: "⚠ CHASE". Grey: "— PATROL". 10 px bold monospace.	Shows the state of the nearest / most dangerous ghost.
Dark Mode countdown	Text label (animated)	Red pulsing text, 12 px bold, letter-spacing 2.	Counts down the warning period before Dark Mode activates. Disappears when Dark Mode begins.
Dark Mode active badge	View + Text	Purple badge "● DARK MODE". Pulsing opacity animation.	Visible for the duration of Dark Mode (30 s).
Freeze timer	Text label	Blue #88DDFF, 11 px monospace.	Counts down remaining freeze duration when active.
Sprint boost timer	Text label	Purple/lavender, 11 px monospace.	Visible while sprint boost is active. Counts down remaining sprint time.
PAUSE button	Tappable icon button	Top-right corner. "❚❚" pause icon, dim white, 16 px.	Opens the pause overlay. Freezes all game logic.

8.9.2 Controls Bar (Fixed Bottom Overlay)

Component	Type	Visual Style	Behaviour & Notes
Controls container	Fixed-bottom View	Height: CONTROLS_H + device safe bottom area. Dark background. Disabled during elevator ride or pause.	Holds all interactive control buttons. Disabled during elevator ride.
D-Pad	4-button directional pad	Four arrow buttons (▲ ▼ ◄ ►), each 60 × 60 px, rounded 14, dark fill + dim border. Active state lightens the button.	Controls player movement direction. Supports simultaneous press (diagonal movement).
INTERACT / HOLD button	Tappable + hold button	Centre-right. Context-sensitive label: KEY / BANDAGE / SPEED / SHIELD / KILL. Disabled (greyed) when nothing is nearby.	Press and hold to collect the nearest item. Progress ring shows hold progress. Releases cancel the capture.
ELEVATOR button	Tappable button	3 visual states: purple "ELEVATOR UP" (floors 1–3) / red disabled "NEED X MORE KEYS" (floor 4, keys missing) / green "OPEN THE DOOR" (floor 4, all 4 keys).	Disabled if player is not in the elevator zone or elevator is busy. Triggers the 5-second elevator ride cinematic.
FREEZE button	Tappable button	Blue #88DDFF border + blue tint. Shows freeze charge	Freezes all ghosts and turns lights on for 20 s. Consumes 1 freeze charge.

		count badge. Greyed when 0 charges.	
PUSH button	Tappable button	Orange #FF8844 border + orange tint. Shows push charge count badge. Greyed when 0 charges or no ghost within 320 units.	Eliminates the nearest ghost within 320 units. Consumes 1 push charge.
SHIELD toggle button	Tappable toggle button	Teal border when armed. Dim when no charges. Shows shield charge count.	Toggles shield on/off. When on, the next ghost hit is blocked at the cost of 1 shield charge.
Hold progress ring	Animated SVG ring	Circular progress ring around the INTERACT button. Gold colour, animates 0 → 360° during hold.	Appears while the player is holding INTERACT to collect an item. Disappears on completion or cancellation.
Capture progress bar	Animated View	Thin gold bar below the interaction prompt area. Fills left → right during hold.	Secondary visual indicator of hold progress.

8.9.3 Silence Alarm Modal.

Component	Type	Visual Style	Behaviour & Notes
Modal overlay	Full-screen Modal	Full-screen semi-transparent black rgba(0,0,0,0.88). animationType: "fade". Blocks all gameplay interaction while visible.	Appears over the play screen immediately on game start. Only the dismiss button is interactive.
Inner card	Rounded View	Rounded 20, 2 px red border rgba(255,60,60,0.7), dark #0D0005 fill. Max width 360 px. Centred on screen with 32 px horizontal padding.	Contains all modal content. Vertically centred on screen.
"STAY SILENT" title	Text label	18 px bold monospace, #FF6666, letter-spacing 4, centred.	Warning heading. Static — no interactivity.
Divider line	Decorative View	80 × 1.5 px, rgba(255,80,80,0.5), rounded 1.	Thin red line separator below the title.
Warning body text	Text label	11 px monospace, rgba(255,200,200,0.80), line-height 19, centred. Three paragraphs.	"During Dark Mode, the microphone is active. If you scream, shout, or make ANY loud noise — nearby ghosts will hear you and rush directly to your location. Keep your voice down to survive."
"I UNDERSTAND — BEGIN" button	Tappable button	Full card width, paddingVertical 14, rounded 14. Red border rgba(255,80,80,0.7) + rgba(255,40,40,0.18) fill. #FF8888 bold monospace text, letter-spacing 3.	The only interactive element in the modal. Dismisses the alarm and starts gameplay. Active opacity 0.85 on press.

8.10 Elevator Ride Cinematic.

Component	Type	Visual Style	Behaviour & Notes
Elevator room container	Full-screen View	Full-screen dark background, flex column layout. Clips overflow. The entire screen simulates an elevator interior.	Root container for the ride cinematic. Shown for ~5 s between floors.

Left wall	View (18% width)	#100E22 background, right border panel. Contains decorative wall elements.	Left interior wall of the elevator.
Right wall + button panel	View (18% width)	#100E22 background, left border. Contains the floor button panel.	Right wall. Holds the interactive floor indicator buttons.
Floor button panel	View	Dark card #080614, rounded 6, border #2A2848. 4 circular buttons (32 px each) + SOS below.	Active floor button glows in its theme colour (green/blue/pink/red). SOS button is decorative only.
Mirror / back wall	View (centre width)	#0E0C20 background, subtle border. Remaining centre width.	The back wall with a reflective appearance.
Character reflection	Character sprite (size 2.4)	Opacity 0.35, transform scaleX: -1 (mirrored horizontally). Seated at bottom of mirror area.	A dim flipped version of the player's character visible in the "mirror".
Scan line	Animated View	3 px height, rgba(180,160,255,0.12). Loops translateY downward every 1200 ms.	Gives the mirror a subtle screen or glass quality.
Floor number display	View (top-centre)	Dark card, rounded 6. Large floor number in amber/green + ▲/▼ arrow + "FL" label.	Shows destination floor number. Switches to ★ on the final floor win. Number ticks up 900 ms into the ride.
Phase label	Text label (bottom-centre)	Accent-coloured text. Above the floor tile.	4 states: "● DOORS OPEN" → "◉ CLOSING…" → "▲ FLOOR X" → "◉ OPENING…"
Left door panel	Animated View	Full height, #1C1A36. Inner frame, grip strip, handle, 2 px gold edge strip.	translateX: starts at 0 (closed) → animates to −LW/2−4 (open). Cubic easing.
Right door panel	Animated View	Mirror of left door panel.	translateX: 0 → +LW/2+4 (open). Same timing as left door.

8.11 Defeated Screen.

Component	Type	Visual Style	Behaviour & Notes
Screen root	Full-screen View	flex:1, #060004 background.	Base container.
Red vignette	Full-screen View (absolute, non-interactive)	rgba(180,0,20,0.08) full-screen fill.	Subtle atmospheric tint reinforcing defeat.
Red top stripe	View (absolute)	3 px height, #AA0015. Positioned top:0, left:0, right:0.	Thin accent stripe at the very top edge of the screen.
Content wrapper	Animated View	Centred column, padding 28. opacity 0→1 (700 ms), translateY 40→0 (600 ms cubic), scale spring.	All visible content animates in together on mount.
Character sprite	Animated View	Character sprite size=2.8, opacity=0.32, spring scale 0.88→1.	The defeated character appears faded and slightly fallen.
"DEFEATED" title	Animated Text label	52 px bold, #CC1122, letter-spacing 6. textShadowColor pulses rgba(200,0,20,0) ↔	The glow pulse is an Animated loop on glowA value, interpolated to textShadowColor.

		rgba(200,0,20,0.55) in a 1200 ms loop.	
Floor + cause text	Text label	10 px dim white, letter-spacing 4.	"FLOOR X · CAUGHT BY A GHOST". States which floor and cause of death.
Divider	Decorative View	60% width, 1 px, rgba(200,0,20,0.3).	Visual separator between cause text and tip card.
Survival tip card	Rounded View	Rounded 14, rgba(255,255,255,0.03) fill, dim border, maxWidth 340.	Contains the survival tip label and tip text.
"SURVIVAL TIP" label	Text label	Gold rgba(201,164,76,0.7), 8 px, letter-spacing 4.	Section label inside the tip card.
Tip text	Text label	Dim white, 11 px, line-height 18.	One of 5 tips selected by: (floorNum−1) % 5. Rotates through as floors increase.
RETRY FLOOR X button	Tappable button	Full width up to 340 px, #CC2233 border + rgba(200,20,40,0.14) fill, paddingVertical 16.	Primary action. Restarts gameplay from the same floor that the player was defeated on.
BACK TO HOME button	Tappable button	Full width, dim white border rgba(255,255,255,0.14), subtle fill, paddingVertical 14.	Secondary action. Returns to the main Hub screen.

8.12 Win / Escaped Screen

Component	Type	Visual Style	Behaviour & Notes
Screen root	Full-screen View	flex:1, #020B06 background, centred column.	Base container.
Content wrapper	Animated View	Opacity 0→1 over 900 ms, maxWidth 380 px, centred.	All content fades in together.
Gold accent line	Decorative View	80 × 3 px, #C9A44C, rounded 2, marginBottom 18.	Premium decorative detail at the top of the content.
Character sprite	Animated View	Character sprite size=3.2, spring scale 0.5→1 (friction 5).	Bounces into full size for a celebratory entrance.
"🎉 ESCAPED!" title	Animated Text label	38 px bold #5ECFA0, letter-spacing 6. textShadowColor pulses rgba(94,207,160,0) ↔ rgba(94,207,160,0.6) in a 1000 ms loop.	Same glow pulse technique as the DEFEATED title, but green.
Subtitle	Text label	11 px dim white, letter-spacing 2.	"All 4 floors conquered. You survived." Static.
Score card	Rounded View	Rounded 12, rgba(94,207,160,0.06) fill, rgba(94,207,160,0.25) border, padding 16.	Contains all stat rows.
This run time row	Horizontal View (row)	Label + green #5ECFA0 time value 13 px, space-between.	Current run time from game timer.
Best time row	Horizontal View (row)	Label + gold #C9A44C time value.	Best ever escape time pulled from AsyncStorage.
Total escapes row	Horizontal View (row)	Label + lavender count value.	All-time escape count.
NEW RECORD badge	View	rgba(201,164,76,0.15) fill, gold border, centred "★ NEW RECORD!" 10 px bold.	Only shown when this run broke the best time record.
PLAY AGAIN button	Tappable button	#5ECFA0 border + rgba(94,207,160,0.12) fill, paddingVertical 15, "▶ PLAY AGAIN".	Primary action. Starts a new game run from scratch.

MAIN MENU button	Tappable button	Dim white border rgba(255,255,255,0.18), subtle fill, "⌂ MAIN MENU".	Returns to the main Hub screen.

8.13 Results Screen.

Component	Type	Visual Style	Behaviour & Notes
Screen root	SafeAreaView	Win: #020B06 / Lose: #060004 background. Colour chosen before render based on outcome prop.	Outer container. Respects device safe areas.
Fade wrapper	Animated View	Opacity 0→1 over 600 ms on mount.	Wraps all content.
Summary card	Rounded View	Rounded 20, max 380 px. Border: rgba(94,207,160,0.25) win / rgba(200,20,40,0.25) lose. Fill: matching colour tint.	The main card containing all result info.
Mission label	Text label	9 px dim accent colour, letter-spacing 5.	"MISSION COMPLETE" or "MISSION FAILED". Small label above the main outcome text.
Outcome text	Text label	"ESCAPED" (green #5ECFA0) or "DEFEATED" (red #CC2233), 36 px bold, letter-spacing 4.	Largest text in the card.
Outcome subtitle	Text label	10 px dim white, letter-spacing 2.	"All 4 floors conquered. You survived." or "The ghost got you. Better luck next time."
Divider	Decorative View	1 px rgba(255,255,255,0.06) line.	Separates outcome from stats.
TIME stat card	Stat card	Dark fill, dim border, rounded 12. "TIME" label + time value 20 px cream.	Always visible.
BEST stat card	Stat card	Gold tint rgba(201,164,76,0.06), gold border. "BEST" label + gold time value.	Win runs only.
NEW RECORD banner	View	Gold fill rgba(201,164,76,0.1), gold border. "★ NEW RECORD!" 11 px bold.	Only shown when brokeRecord === true.
BACK TO MENU button	Tappable button	Dim white border, rgba(255,255,255,0.04) fill, "BACK TO MENU" cream text.	Calls navigation.replace("Game") to return to the root Hub screen.

8.14 Reusable Components

Components used in more than one screen. Built once and shared across the entire app.

Component	Type	Visual Style	Behaviour & Notes
ChibiCharacter	Image / SVG	Character sprite via Image (registry-based) or procedural SVG. Size multiplied by prop. Can be flipped with scaleX: -1 (flip=true prop).	Used in: Home, Profile, HUD, Game world, Defeated, Win, Elevator mirror. Falls back to SVG if no spriteImage in charData.

HeartRow	Row of squares	Row of 13 × 13 px squares — red #FF3355 (alive), dark #2A1A1A (lost). Max 5 displayed. Wraps at maxWidth 90.	Used in: HUD bar. Takes hearts (current) and maxH (maximum) props.
GhostSprite	Image + View / SVG	Ghost image with glow halo (r × 6.5 container) + state badge above. Halo and badge colour match ghost state.	Used in: Game world. patrol=grey, alert=amber, chase=red, frozen=blue. Procedural SVG fallback if no image.
GhostZoneRing	SVG circle	Dashed circular outline in world-space. Circle at zone centre. Opacity varies by state (patrol 0.07 / alert 0.18 / chase 0.28).	Used in: Game world. Colour from theme.accent / alertColor / chaseColor. Visible only if Show Ghost Zones is enabled in Settings.
FloorBackground	View + SVG	Checkered tiles (120-unit grid) in theme tile/tileAlt colours. SVG scratch lines and dust dot overlays.	Used in: Game world. Generated once per floor. Static during gameplay.
WallBlock	Themed View	Top highlight, left highlight, inner dark, outer glow border. Corner radius on interior walls only. isBorder prop removes corner radius for outer boundary walls.	Used in: Game world. One per maze cell marked as wall.
StatCard	Rounded View	Dark fill card, rounded 14. symbol (11 px dim) + value (16 px bold, colour) + label (8 px dim) centred.	Used in: Profile tab, Results screen. Props: symbol, label, value, color.
ActionRow	Tappable row	Flex row: icon badge (36 × 36 px) + text column (title + sub) + ">" chevron. Rounded 16, themed border + fill.	Used in: Profile tab. Props: symbol, symColor, title, sub, titleColor, onPress, borderColor, bgColor.
Toggle	Card with 2 buttons	Card with title, description, and two full-width side-by-side buttons. Active button shows coloured border + tint. Inactive button is dim.	Used in: Settings screen. Props: label, desc, value, onTrue, onFalse, colorOn, colorOff.
Section divider	View (row)	Full-width horizontal line — centred label text — full-width horizontal line. Label in gold 8 px, letter-spacing 4.	Used in: Rules tab, Settings screen. Consistent section separator style throughout the app.

9. Individual GitHub Contributions Log

List each team member's GitHub contributions related to design assets, documentation, or repository updates for this milestone:

- GitHub Link

Student Name	Contribution Description	# Commits	GitHub Username

11. Grading Rubric — Milestone 2: UI/UX Design (10 Marks)

This rubric will be used by the instructor to grade your submission. It is included here for your reference so you can self-assess before submitting.

Deliverable / Criterion	Max Marks	Excellent (Full Marks)	Good (75%)	Satisfactory (50%)	Score Awarded
1. Wireframes for All 10+ Screens					
Coverage & Completeness	3	All 10+ screens designed; every planned feature visible	8–9 screens or minor gaps in feature coverage	6–7 screens or significant missing features	
Clarity & Detail	2	Layouts are clear, labeled, and consistent across screens	Mostly clear with some ambiguous elements	Rough or hard to interpret layouts	
2. Navigation Flow Diagram					
Accuracy & Completeness	2	All screens and transitions shown; matches wireframes exactly	Most transitions shown; minor omissions	Partial diagram; missing key flows	

Deliverable / Criterion	Max Marks	Excellent (Full Marks)	Good (75%)	Satisfactory (50%)	Score Awarded
Clarity of Navigation Types	1	Stack, Tab, Drawer navigators clearly distinguished	Navigation types labeled but some ambiguity	Navigation types not distinguished	
3. Component Hierarchy Documentation					
Depth & Structure	1	Full tree of screens, components, and props clearly documented	Main components shown; missing sub-components or props	Only top-level screens listed; no hierarchy detail	
4. Design Quality & Consistency					
Visual Consistency (fonts, colors, spacing)	1	Uniform theme, color palette, and typography throughout	Mostly consistent; minor deviations	Inconsistent design across screens	
iOS & Android Considerations	0	Platform differences noted in design (bonus consideration)	Some platform notes included	No platform-specific design consideration	—
TOTAL MARKS		**10 marks**			**/ 10**

Instructor Comments:

Instructor Name: _____	Signature: _____
Date Graded: _____	**Final Score:** **/ 10**

Important Notes

- Submit one document per group to Blackboard before the due date (26-Feb-2026, Week 5).

- All wireframes must be clearly labeled with the corresponding screen name.
- GitHub link to the repository must be active and accessible.
- AI tools (ChatGPT, Figma AI, etc.) may be used but must be documented within the submission.
- Late submissions will be penalized according to university policy.
- All required React Native concepts must eventually be visible in the final app — your design should reflect this planning.
